Air is the third Basket bed

# Taking to the air

Bonaldo has expanded its bed offer

In 2013 Bonaldo introduced the Basket bed, given its name thanks to its enveloping headboard. This was followed last year with the pleated Plus headboard, and this year **Mauro Lipparini** has added to his designs with Air, featuring painted metal feet to give it a feeling of lightness.

The feet are available in white, anthracite grey, dove-grey, amaranth, black or silver.

Lipparini has also created the Cuff bed for Bonaldo. 'The Cuff bed expresses its strong personality in the tailoring details: from the frog fastenings that adorn the two flaps which cover the padded headboard, to the pleating that marks the vertical pattern of the back panel cover,' he says.

Cuff's headboard can come with leather or fabric covers, with visible leather inserts both on the headboard and on the bed surround, while the feet are made of painted metal, in white, anthracite grey, dove-grey, amaranth, black or silver. There is also a storage version.
