## Seating: Residential/Sofa

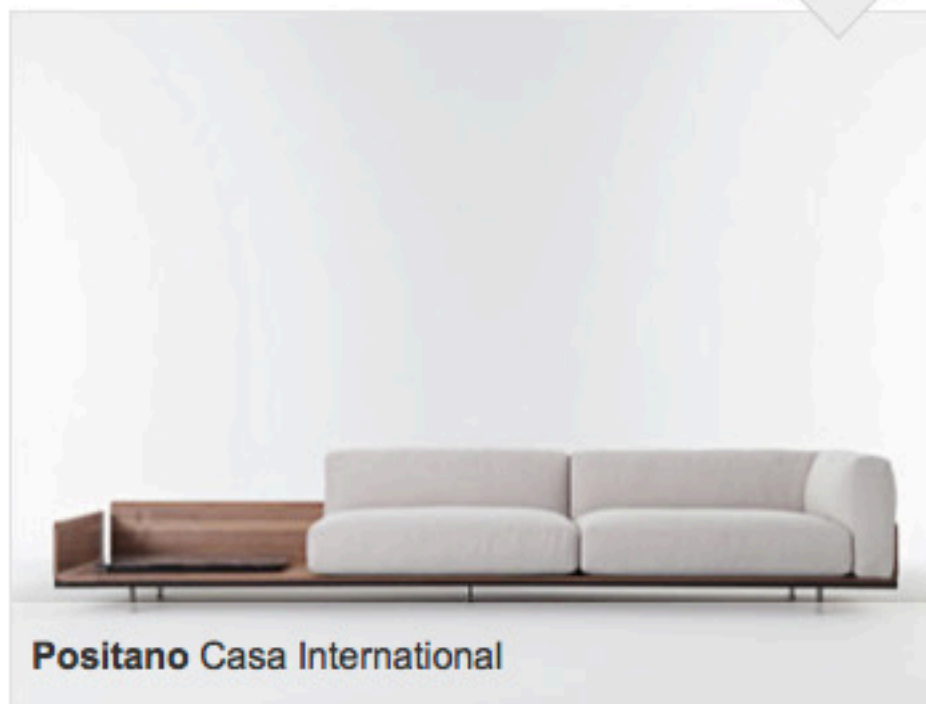

### Positano

Casa International

A modular sofa system that allows for relaxing or entertaining. All of its elements work around a curved multi-layer platform that offers countless solutions – linear or corner arrangements, symmetrical or asymmetrical geometries, high or low armrests. The seat cushions, backrests and the marble tray can be effortlessly moved around the base structure, allowing many different convivial seating arrangements. Limitless possibilities and its remarkable modularity and flexibility make it stand out.
