Tips for minimalist a interior

- * MAKE ENOUGH ROOM around a product and allow it to breathe.
- * BIG NO-NO TO clutter, allow for plenty of open space.
- * GREYS AND WHITES FORM THE dominant colour palette.
- * BUILD A SILHOUETTE WITH thin lines and functional elements.

CLOCKWISE FROM RIGHT Ofuro bathtub, Rasperl available at Zolijns; Gibellina tables by Antonino Sciortino, Baxter available at Sources Unlimited; Rail sun lounge, Pedrali; Kalmar Sofa, Anthropologie; bar chair, ₹35,000, Artychoke.

warm neutral shades from a palette of off-white to sand, from beige to brown to give that cosy and welcoming vibe'. Fewer furniture, plain/textured furnishing and minimal decoration should be on display taking in strong, clean lines and flat, smooth surfaces to create bold statements that emphasise true nature of each item. A clear straight-line silhouette with texture of the material adds character. Avoid highly patterned furnishings and accessories or extremely detailed ornamentation. Simplicity draws attention and inspires creativity. While using this theme try to focus on functionality and practicality. Living a life which embraces *Less is More*, though more a matter of personal choice, calls for discipline, zen approach to life and gives a calm vibe in return.
